**Some of Our State Publicity Is Slanted for North Arkansas**

A press release from the State Publicity & Information Department reminds me that this is Tourist Promotion week in Arkansas, the feature of which will be a motorcade from Harrison down the mountains to Russellville, headed by Governor Frances Cherry.

While the tour covers only State Highway 7, connecting the Ozarks and the Ouachitas, all resort areas of the state are featured in the week's promotion literature.

Official opening of the tourist season has been fixed as May 15, this Saturday.

One good thing about the tourist business is that it has remarkable durability. Despite the recession talk of last winter, advance bookings for summer holiday resorts have hit an all-time high. Therefore it is good business for a state with recreational facilities to push 'em for all they're worth.

Mind only one fault with the current release by the Publicity & Information Department, it reports:

"Arkansas was the best represented state in the Union at the Dallas Vacation and Travel Show held the last week of April. In addition to the Arkansas Publicity Department booth, the Ozarks Playgrounds association, the Park hotel in Hot Springs, Ozarks Lakes and Streams group, the (Murfreesboro) Diamond Mine and Narrows Dam all had booths at the show and handed out literature on the state to inquisitive Texans."

"According to Arkansas booth attendants, the majority of Texans were surprisingly familiar with the state's outstanding attractions — especially with Bull Shoals and Norfork. These two fishing paradises were the object of most of the water-poor Texans' inquiries. Attendees estimate that about 10,000 requests for literature were collected at the show."

The inference (although not a positive statement) is that Bull Shoals and Norfork lakes get more Texan patronage than any other fishing resort in Arkansas. But I believe any actual count would show our own southwestern lake, the Narrows, gets more Texans than Bull Shoals and Norfork combined. Texas automobile licenses dominate the Narrows shoreline most of the time, as our home folks know. And one look at the map makes it seem unreasonable that Lone Star folks would pass up our section to drive all the way to north Arkansas — some of course, but not most of them as the press release would infer.

Bull Shoals and Norfork have had the lion's share of publicity, due in part to Harry Truman's visit to both of them when he dedicated Bull Shoals as President. But the Narrows is a top-notch attraction for Texans, and, I believe, gets the majority of them, despite the newspaper fame of the big lakes in north Arkansas. The latter do a booming business from Missouri, however, drawing from points as far away as Kansas City and St. Louis.

I think it is important to fight north Arkansas resort publicity when it is slanted against our own tourist trade, because tourist dollars are especially valuable dollars, coming as they do in the slack summer season. And anything that draws crowds into our section any time of year helps the southwestern counties all the rest of the year.

And remember that while the north Arkansas areas have many publicists to speak for them, the Narrows recreation facility has to depend mainly on three publicity centers: Hope, Texarkana, and Nashville. This newspaper has never passed up an opportunity to plug the beautiful Narrows lake, and I know of Texas families as far south as Lufkin who have gone there on our recommendation — and have spread the word in the Lone Star state.

**Shover Springs Singing Sunday**

Regular monthly singing services will be held at Shover Springs Church Sunday, May 16, starting at 2 p.m. The public is invited.

### Proclamation

WHEREAS, the annual sale of Buddy Poppies by the Veterans of Foreign Wars of the United States has been officially recognized and endorsed by the President of the United States and the Veterans Administration; and

WHEREAS, the VFW Buddy Poppies are assembled by disabled veterans and the proceeds of this worthy fund raising campaign are used exclusively for the benefit of disabled and needy veterans and the widows and orphans of deceased veterans; and

WHEREAS, the basic purpose of the annual sale of Buddy Poppies by the VFW is eloquently reflected in the desire to "honor the dead by helping the living." Therefore, I, John L. Wilson, Mayor of the City of Hope, do hereby urge the citizens of this community to recognize the merits of this cause by contributing generously to its support through the purchase of Buddy Poppies on May 15, 1954, the date set aside for the distribution of these symbols of loyalty. I urge all patriotic citizens to wear a Poppy as mute evidence of our gratitude to the men of this country who have risked their lives in defense of the freedom which we continue to enjoy as American citizens.

John L. Wilson

### Food Engineering Is a New Field Which Finds Answers to Everyday Kitchen Problems

By HAL BOYLE

NE W YORK (UP)—How can you get bananas to stay ripe longer by making them breathe less? How tough should a jelly bean?

What is the correct wall thickness of a piece of macaroni?

How can you tell whether canned peas are young, middle-aged or elderly?

These problems would baffle the best of housewives, but a man—one man anyway—finds them quite simple. He is George Garnatz, a pioneer in the rapidly expanding field of food engineering.

"I've been stuck with food problems for 32 years," said Garnatz. "Every since I wrote a graduate thesis on the soda cracker when I was studying to be a chemical engineer. Nobody before had ever written a thesis about soda crackers. Chemical engineers then didn't pay much attention to the study of food processes."

Today, as director of the Kroger Food Foundation in Cincinnati, Garnatz and a staff of 25 work in a laboratory full of weird

machines developed to see that mama gets what she pays for at the grocery store.

"Our devices test food products mechanically and objectively," said Garnatz. "They take the element of human opinion out of it, so we can get down to the real facts about food."

Last year we made more than 197,000 scientific inspections of 1,000 food items. Only a fraction of one per cent had to be rejected because the manufacturers had misrepresented them or they weren't up to government grade."

With a simple micrometer Garnatz can measure a piece of macaroni to be sure that it has the proper wall thickness.

"A quick-cooking macaroni should be about 26-1,000th of an inch thick," he said. "Slow cooking macaroni can be up to 4-100th of an inch. We can allow up to \$5,000th of an inch variation and still guarantee uniform cooking quality."

How do you tell young peas from old? Police Lt. Edward Jocques said

### 14-Year-Old Admits Killing a 4-Year-Old

DETROIT (UPI)—An unemotional high school student told police today he fatally beat and slashed a 4-year-old girl, but didn't know why he did it.

Marion Jo Zobrovitz was found yesterday by three playmates in a garage behind her home, her body torn and bleeding. She died in a hospital after doctors fought 4½ hours to save her.

Police Lt. Edward Jocques said 15-year-old Terrence De Moss told him he had struck the girl with a 2-by-4 beam, then slashed her.

Jocques said the boy gave no reason for the attack.

De Moss is a juvenile under Michigan law and cannot be charged with a major crime in Criminal Court unless Probate Court waives its jurisdiction.

Mrs. Doris De Moss, his mother,

### Ranking Junior High Students Are Listed

The Hope Junior High School 8th grade students who have the highest grade point average have been announced by Mrs. Frank Mason, principal.

To Ellen Barr, who has a perfect grade point average of 6.00, is the highest honor student in the 8th grade and will write the class presidency.

Linda Gilbert, who ranks second with a grade point average of 5.8 in class, historian, tying for third place with a 5.6 average are Tommy Polk, who will write the class will, and Barbara Powell, who will be in charge of Who's Who.

Other high ranking 8th graders and their averages are the following: Joyce Weisenberger, 5.5; Glenda Huckabee and Mary Jean Sparks, 5.3 each; Marilyn Reece, Larry Martin, Diane Helms, and Sheila Foster, 5.1 each; Donny Stanley and Webb Laseter, 5.0 each; and Max Miller and J. B. Henry, 4.8 each.

The 8th graders will celebrate their graduation from Junior High school with a picnic at Fair Park May 14.

### Adams Describes Pressure, Abuse From Cohn

By RAYMOND LAHR and HERBERT FOSTER

WASHINGTON (UP)—Army Counselor John G. Adams testified today that Roy M. Cohn heaped "abuse" on him and brought "extreme pressure" on the Army in an effort to get special favors for his drafted friend, Pvt. G. David Schine.

Adams, who replaced Army Secretary Robert T. Stevens on the witness stand on the 15th day of the Army-McCarthy hearings, also testified that Cohn flew into a rage and declared "this is war" when Stevens barred him from a secret radar laboratory at Ft. Monmouth, N.J., last Oct. 20.

The 42-year-old Army counselor related in detail how Cohn tried to get a New York assignment for Schine, unpaid "chief consultant" on the subcommittee before he was drafted last Nov. 3.

Adams estimated that, in telephone calls alone, Cohn brought up the Schine question an average of once a day from Nov. 10 to Dec. 9.

Asked by subcommittee Special Counsel Ray H. Jenkins if it was "terrific pressure," Adams explained that it surpassed all similar pressure combined in his Pentagon experience.

"The abuse I took regarding Schine," he said in a calm, deliberate voice "... if you'd pile together the abuse I took from all members of Congress and congressional employees over five years it would not compare," with that in the Schine case.

"Abuse from whom?" Jenkins asked.

"From Cohn," Adams replied.

TIGHTENING — French forces are tightening their defenses in the vital Red River Delta region, the "Rice Bowl" of Indochina where Red troops have captured two outposts. Here, a Viet Nam battalion with automatic rifles protect a civilian convoy on the Bulchi River last August. (NEA TELEPHOTO)

### Ike Raps Use of FBI Data Unauthorized

WASHINGTON (UP)—President Eisenhower today called it reprehensible for any Army Intelligence officer to supply confidential FBI data without authorization.

He was asked specifically about an incident related by Sen. McCarthy but Eisenhower said he would only discuss the principle involved.

The president also told his news conference, in a comment on the international scene, that the free world ought not to write off Indochina.

At the outset of the conference, a reporter told the President that Sen. McCarthy had testified last week that an Army intelligence officer supplied him with classified FBI material.

The newsmen went on to say that Atty. Gen. Brownell later said the material should not be made public. Eisenhower then was asked to comment on the "propriety" of the Army intelligence officer's delivery of such data to McCarthy.

The President recalled that he said at his news conference last week he was thinking of taking a vacation from replies to questions dealing with McCarthy.

He added he was not going to comment on the aspect of the question as it related to McCarthy.

The President then went on to discuss the principle of the situation raised by the reporter's question.

He said that in a case where any individual officer gives away classified information, it is so reprehensible.

Eisenhower said that was especially so in the case of security material which must be kept secret.

The President said that when enlisted men enter the armed forces they take an oath to obey the regulations and their superiors.

Eisenhower then asked whether we are to assume that an enlisted man can adopt one kind of loyalty and an officer another kind.

Answer his own question, the President called that perfectly ridiculous.

He added that when ever we get to that kind of a situation in the armed services, we had better disband them.

Later in the news conference, the President said in reply to another question he did not know

SUSPECT — James H. Jones, left penniless and unemployed, is chief suspect in \$200,000 mail robbery involving 20 Dallas Jewish families. Jones was captured late Monday while trying to retrieve a package supposedly containing the money. He fired one shot at close range as FBI agents moved in but missed. Capt. T. J. Crawford of Sheriff's department fingerprints Jones before placing him in jail. (NEA TELEPHOTO)

### Woman Killed in Accident Near Fulton

By DONALD J. GONZALES  
WASHINGTON (UP)—Secretary of State John Foster Dulles has urged Congress to give the administration a free hand to use Indochina aid funds to arm members of his proposed Southeast Asia alliance, informed sources said today.

Investigating Arkansas State Police said the woman, traveling alone, tried to pass a truck-load of Mexican laborers, sideswiped the truck in trying to dodge an oncoming truck, lost control of her auto and plunged off a 15-foot embankment.

In its plunge off the highway the car traveled some 90 feet, officers said. Death was almost instantly as she was partly decapitated when caught in a door of the auto.

A former English teacher at Dallas, Dr. Baker was an Instructor at Mary Washington College, Fredericksburg, Va., before retiring five years ago. She taught a number of textbooks now being used in Virginia, several juvenile fiction books and others dealing with pioneer life in West Texas.

The administration has asked for more than \$1,000,000,000 to finance the anti-Communist fight in Indochina in the year beginning July 1. Under the present bill, five-sixths of this would be handled through France.

Dulles' proposal was an obvious effort to cut away the strings so the money can be used to best advantage in the fast-moving effort to stem the Red tide in Asia.

Meanwhile:

1. The administration scrambled to head off a possible clash with France over a Dulles statement implying the United States no longer considers Indochina necessary to the defense of Southeast Asia.

2. Senate Republican Leaders William F. Knowland urged an end to "partisan carping criticism" as the government will not be "paralyzed and rendered impotent" in the crisis. He indicated he referred to both Democrats and Republicans who have been trading blows on foreign policy.

3. Sen. John F. Kennedy (D.-Mass.) said in Princeton, N. J., that the administration's "real failure" was in not recognizing months ago that the situation in Indochina was deteriorating fast and starting to work on policies to deal with it.

4. Defense Secretary Charles E. Wilson left for a Far Eastern tour yesterday by three playmates in a garage behind her home, her body torn and bleeding. She died in a hospital after doctors fought 4½ hours to save her.

In another two-car accident near Sutton's Livestock Commission on Highway 67, near Hope, Donald Mathew, local youth was injured but not believed seriously when his auto collided with another driven by an unidentified Texarkana man. Both vehicles were badly damaged.

With a simple micrometer Garnatz can measure a piece of macaroni to be sure that it has the proper wall thickness.

"A quick-cooking macaroni should be about 26-1,000th of an inch thick," he said. "Slow cooking macaroni can be up to 4-100th of an inch. We can allow up to \$5,000th of an inch variation and still guarantee uniform cooking quality."

How do you tell young peas from old? Police Lt. Edward Jocques said

### French Cabinet of Laniel May Be Voted Out

PARIS (UPI)—Premier Joseph Laniel's government today faced the gravest threat of its 11-month career. It marshaled support to meet its second vote of confidence in a week, a ballot in the National Assembly tomorrow on Laniel's refusal to set a date for debate on Indochina.

Outcome of the vote was uncertain.

Laniel won a confidence vote on the same issue of debate-timing last Thursday 31-252. But the fall of Dien Bien Phu the following day touched off widespread criticism enough to help the defenders done enough to help the defenders of the Indochinese fortress.

It will be much more difficult for Laniel to have his way this time. Many of the deputies who met last night had the complaints of their constituents about Dien Bien Phu's fall ringing in their ears.

### Sermon Proves Very Realistic

HOUSTON, Tex. (UPI)—The Rev. Rufus T. Blivins gave a very realistic sermon and demonstration of the tortures of hell here last Sunday.

While telling the North Side Methodist church about the fate awaiting incorrigible sinners, Blivins slapped the side of his leg for emphasis. A packet of matches ignited and the minister spent several minutes demonstrating how a man on fire reacts.

Outcome of the vote was uncertain.

Laniel won a confidence vote on the same issue of debate-timing last Thursday 31-252. But the fall of Dien Bien Phu the following day touched off widespread criticism enough to help

**French Blast  
Army Wrong  
Over Time**

DOUGLASS (Pa.) — Squadron commandant 125 bombers destroyed the Vietminh rebels to defend the Red River Deltas. This was put on the top of the list in the Indochina war. Planes bombed bases of the communists last week at the time of the battle in southern areas of Laos. Rebels stayed out of the French held position around Dien Bien Phu for four months.

Indochina rebels continued hard fighting. The French reported about 100 killed and 200 wounded about eight miles east of the former Indochina capital. The French had the railroad restored to operation soon afterwards.

French United Nations' mission and UNO captured today unopposed mop up actions around the Deltas.

These activities followed a warning by a top French commander that his forces may need foreign help to repel the Communists if they do not succeed in their present offensive.

The situation in the delta is serious but far from hopeless, according to UNO. They may need help from outside if the Vietnamese attack the Deltas with all their resources and with military support from Dien Bien Phu.

Boden specified no country in his mention of additional foreign aid. The United States reportedly rejected French request for Air Force help to Dien Bien Phu after Britain's government said it could not support military intervention until the outcome of the Geneva conference was known.

Boden's description of the situation in the delta as "serious" was the first such call for any action by the French high command in Indochina.

Seeking to exploit their victory last week at Dien Bien Phu, the rebels throughout the rich rice lands stepped up their attacks on French, American and Vietnamese defense posts.

The French retaliated with massive bombing in South yesterday on key centers of Vietnamese activity in the region. They reported 50 bombers wiped out three villages in the northeast part of the delta. Some of these, French claimed, rebels had staged big raids on highway and railway linking Hanoi and Haiphong.

**Seven Die in  
State Accidents**

By THE ASSOCIATED PRESS  
A triple fatality was caused by a triple accident yesterday already has been heavy through into Arkansas. At least seven fatalities have been reported since last Sunday midnight.

Sheriff John Black of Benton County and George Bory, a 77-year-old farmer, went berserk think three persons including himself 20 miles northeast of Rogers.

The other two dead ones were identified as M. E. Ellif, a neighbor of 74-year-old George Foy, another victim.

Dr. Elizabeth Baker, 77, of Dallas, Texas, was killed yesterday in a highway accident near Hope, Ark.

It is said Mrs. Baker's car skidded on a portion of Mexican highway while attempting to pass the vehicle. Her car on the highway at 37 plowed down a stone embankment and turned in a ditch.

Dr. Baker was author of a series of English-language textbooks and juvenile books. She formerly taught English at Mary Washington College in Fredericksburg, Va.

### NEW YORK STOCKS

NEW YORK (AP) — The stock market turned higher today after a hesitant start.

On the heels of yesterday's decline the market this morning started off mixed. It soon turned ahead, however, and by early afternoon the list showed gains running to between 1 and 2 points at the best. Losses usually were fractions.

Soon Webb, also bruised, appeared with his writer, Richard Breen. They both started in radio in San Francisco with a memorable private-eye show called "Pat Novak for Hire." With them were two noted directors, Delmar Daves and Mervyn Leroy. I also learned that Billy Wilder and George Stevens had visited the set. I couldn't determine whether all these directors were being helpful to a new member of their craft or were merely curious TV fans.

Webb is directing the film, as he does the TV series. That is no easy matter, since he appears in every scene.

When he finished with his visitors, he came over to chat. His conversation is like that of Joe Friday — crisp and full of facts.

I asked him if there were any surprises in his debut as a director of a full-length feature.

"Only in the speed of the crew," he replied. "I knew they were good, but I didn't think they would be able to keep up the kind of pace we maintain in TV. I've got 24 days to finish the picture, but I hope to bring it in at 18."

He explained that the movie script, like those in TV, was taken from an actual case. It concerns a gangland killing, but is not a whodunit.

The first third of the picture concerns the how and who of the killing," he said. "The rest of the picture tells how the facts were gathered to present to the courts. This time we will show a division of the police department we have never treated before. It's the intelligence division, which gathers material on a criminal from all departments of the force."

Reader's Aid?

Because he found so many systems of punctuation in use, Timothy Dexter wrote a book,

"A Picket for the Knowing Ones,"

and omitted all points in the text but printed five pairs of nothing but punctuation marks at the end for the reader to use as he might wish.

Continued from Page One

was the murderer, but police arrived before she could tell them in a formal statement to police, she said that Terry was fascinated by a newspaper account of the crime. She said that he left for school yesterday morning and came home about 2:30 p.m.

She told police that he went to the bathroom and then to the kitchen, where he tried to clean broken spots on his gray flannel trousers. He told her that a girl had yelled something at school and he had gotten splashed.

Ruth Johnson, Houston, Louis Macha, Jr., Houston, Mr. and Mrs. David C. Wallace, and son of Little Rock, Miss Janie McGuire, Little Rock, Ernest H. Peachey, Magnolia, Mrs. W. B. Cummings, Blevins, Mr. Coy Cummings, DeQueen, Mr. and Mrs. James Erskine, Magnolia, Miss Nadene Burnham, Little Rock.

Mrs. D. L. McRae Jr., Mrs. Tom Bernis, Mrs. Carl Dalrymple and Mrs. Jack Harrell attended Sponsorial Day at the Vera Lloyd Presbyterian Home in Monticello on Saturday.

Mr. and Mrs. Bob Archer and Susie of El Dorado were the weekend guests of Mr. and Mrs. Horace Hale.

Mr. and Mrs. J. D. Atkinson had as their weekend guests Mr. and Mrs. Don Cavanah and Kay, Mr. and Mrs. Cecil Garrett Jr. and children of Magnolia.

Miss Bertha Gray was the weekend guest of relatives in Pine Bluff.

Mr. and Mrs. Frank Gilbert were the guests for the weekend of Mr. and Mrs. H. O. Ross in McGhee.

T. H. Pritchard of Kilgore was the guest Sunday of Mr. and Mrs. C. H. Moore.

Mrs. Bob Stewart and Miss Joyce Stewart were Sunday guests of Mr. and Mrs. Robert Cooley in Nashville.

Miss Janie McGuire has returned to Little Rock after a weekend visit with her parents, Mr. and Mrs. A. E. McGuire.

Miss Myrna Sue Daniels of El Dorado was the weekend guest of her parents, Mr. and Mrs. Virgil Daniels.

Dr. Charles Hesterly attended a post graduate course at the University Medical School in Little Rock last week. Dr. Jim Worthington, a former Prescott resident, was in charge.

Friends of Mrs. Floyd Taylor will be glad to know she is recovering from major surgery at the Cordell Hospital.

A normal human ear can distinguish about 333,000 different tones.

## Easy Dad, Junior Not Really Sick

OKLAHOMA CITY (UPI) — Easy, Dad, don't rush for the doctor — Junior's temperature zips above the standard 98.6.

He may have nothing more than a case of "bubble gum fever."

Worse yet, it may be a case of "school fever," once a standard joke among small fry, and now a scientific fact.

The truth is, explains Dr. Fred M. Taylor, Houston, Tex., pediatrician, lots of things may bring junior's temperature to a boil — not just some pesky bug.

Taylor addressed some 500 Oklahoma doctors yesterday at the State Medical Assn. convention.

"Some child may be having trouble getting along with his teacher or playmates," Dr. Taylor explained. "This emotional upset may cause his temperature to rise. The psychiatrists refer to this as school fever."

Even chewing can make junior's temperature rise above the 98.6 mark. He said a perfectly normal child may have a temperature of 100 or 101 degrees "just from exercise itself."

This includes bubble gum chewing.

The thing to do, Dr. Taylor advised, is not to rear a child by relying on the thermometer to tell when danger is at hand.

"Too often they feel the temperature should be stuck at that little red arrow. It is normal to vary. A child may go for weeks or months with an afternoon elevation of temperature. Sure, it is up. But that's the way you keep warm — by exercise. Let the child rest 30 to 45 minutes and then take his temperature."

**Armed Forces Day to Be Observed**

NEW ORLEANS (UPI) — A total of 28 Arkansas cities will observe Armed Forces Day May 15. It was announced today by area 2 Armed Forces day headquarters here.

The day will be celebrated with airplane fly-overs, open houses at military establishments, displays of military equipment, and speeches by high-ranking officials in:

Fort Smith, Little Rock, Arkadelphia, Batesville, Blytheville, Conway, Fayetteville, Forrest City, Hope, Hot Springs, Jonesboro, Nashville, Newport, Paragould, Paris, Pine Bluff, Pocahontas, Rogers, Russellville, Seaway, Stuttgart, Warren, Harrison, Magnolia, Camden, El Dorado, Helena and Malvern.

At Camden, special open house ceremonies will be held and war bonds will be given away as door prizes.

All cities except Arkadelphia and Paragould will have airplane fly-overs on May 15 and most will observe open houses at nearby military activities.

Armed Forces Day parades will be held in Fort Smith, Arkadelphia, Blytheville, Fayetteville, Hot Springs, Jonesboro, Russellville, Warren and Camden.

The immediate objective in 1954, the pamphlets state, must be to prevent the Eisenhower administration and Congress from taking the country further down the road to McCarthyism.

"Defeating McCarthyism requires the turning of the present administration out of political power, first by changing the composition of Congress in 1954 and then by electing a new administration in 1956."

The pamphlet cheers the New Deal, the Fair Deal and Franklin D. Roosevelt, but has no kind words for former President Harry S. Truman.

"What is needed," it continued,

"is a new administration which starts to build again where the New Deal left off. To unite a new political majority for 1954 and 1956

requires recognition that the two-party system remains the form through which the overwhelming majority of the American people now express themselves in politics."

Under those circumstances the decisive sections of organized labor, without which a mass third party is impossible, will first attempt to fight out the issues within the ranks of the Democrats Party.

"The key to both crucial 1954 and 1956 elections lies in the ability of organized labor to come forward as a distinct political force even within the framework of the present two-party system. Its objective must be to help bring about a regrouping and realignment within the Democratic party nationally and the Republican party in local areas."

But the pamphlet explains that is only a temporary program. The ultimate objective is a new party to be called the Farmer Labor Party.

"As the American people succeed in electing a new administration and blocking the immediate menace of fascism and war," the pamphlet continues, "a new stage in the struggle will begin to unfold. It is then that the perspective of subsequently electing a new type of government, a farmer-labor government, will begin to arise in our country."

## Forseees 500 Million Dollar Economy

By NORMAN WALKER

WASHINGTON (UPI) — Sen. Humphrey (D-Minn.) told a CIO "full employment" conference today the nation should set its sights on a 500-billion-dollar economy by 1960.

The economy now is running at about 360 billion dollars a year, but Humphrey said vastly increased national production is needed to prevent a decline in living standards.

He was a featured speaker at a meeting of CIO delegates called to discuss the unemployment problem. The latest government report showed 3,465,000 jobless in April, many in factories organized by the CIO.

## Fined for Posing as a Doctor

SEARCY (UPI) — John R. Sparks of Pangburn was convicted here yesterday of practicing medicine without a license. He was fined \$1,000 and sentenced to 120 days in jail by Municipal Judge C. E. Yingling Jr.

Prosecutor Lloyd Henry filed 14 counts against Sparks last March when his office learned that the 54-year-old man was not a licensed physician. He charges Sparks with practicing medicine without a license and not having a basic science permit.

Sparks, who was Pangburn's only physician, came to the White County town in answer to a newspaper ad placed by town leaders. He told city officials that he was a retired Army doctor.

When officers went to Spark's home to serve the papers, he had left town. Sparks was arrested in Missouri later and returned here for trial.

Henry also has filed a false pretense charge against Sparks. This charge probably will be tried in the July term of White Circuit Court.

## U.S. Commies Switch Plans, Woo Demos

By LYNE C. WILSON

WASHINGTON (UPI) — The Communist party in the United States suddenly has switched tactics with public proposal of a political marriage of convenience with the Democrats. The objectives are Republican defeat this year and in 1956.

The Communist program is the pre-war popular front scheme warmed over. The popular front was a device by which the Communists, in France for example, joined with all other left of center political groups in seeking political control. The Reds similarly supported Democratic candidates in the United States between the time Hitler invaded the Soviet Union in 1941 until the war was won.

The immediate Communist political plans in the United States are detailed in a pamphlet, "The American Way," now being widely circulated by mail.

"The immediate objective in 1954," the pamphlets state, must be to prevent the Eisenhower administration and Congress from taking the country further down the road to McCarthyism.

"Defeating McCarthyism requires the turning of the present administration out of political power, first by changing the composition of Congress in 1954 and then by electing a new administration in 1956."

The pamphlet cheers the New Deal, the Fair Deal and Franklin D. Roosevelt, but has no kind words for former President Harry S. Truman.

"What is needed," it continued,

"is a new administration which starts to build again where the New Deal left off. To unite a new political majority for 1954 and 1956

requires recognition that the two-party system remains the form through which the overwhelming majority of the American people now express themselves in politics."

Under those circumstances the decisive sections of organized labor, without which a mass third party is impossible, will first attempt to fight out the issues within the ranks of the Democrats Party.

"The key to both crucial 1954 and 1956 elections lies in the ability of organized labor to come forward as a distinct political force even within the framework of the present two-party system. Its objective must be to help bring about a regrouping and realignment within the Democratic party nationally and the Republican party in local areas."

But the pamphlet explains that is only a temporary program. The ultimate objective is a new party to be called the Farmer Labor Party.

"As the American people succeed in electing a new administration and blocking the immediate menace of fascism and war," the pamphlet continues, "a new stage in the struggle will begin to unfold. It is then that the perspective of subsequently electing a new type of government, a farmer-labor government, will begin to arise in our country."

part-by-part proof...

## Plymouth is your "best buy" in the lowest-price field!

Recently a 1954 Plymouth and current models of the other two best-known low-price cars were taken apart by Plymouth engineers and compared, part by part. Standard "stock" models were used. We've listed some typical findings below.

**Plymouth is "best buy" in many ways. Here are just a few!**

### Front Wheel Brakes

Plymouth engineers provide two hydraulic brake cylinders in each front wheel to ensure smooth stops without "grabbing." The other two low-price cars have only one.

### Seat Springs

Plymouth uses coil seat springs, for longer lasting support. The "other two" have a zigzag platform type. Also, Plymouth's "springs-on-springs" design adds more comfort.

### Piston Rings

Plymouth has four rings on each piston; the "other two" have three. Result: decreased carbon deposit, more consistent power output. Reduced oil economy, too!

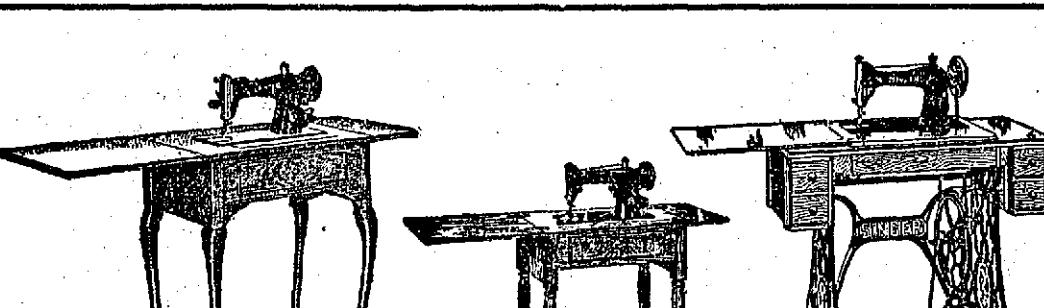

### Micronic Oil Filter

Standard on most Plymouth models. Keeps abrasive dirt out of the engine, reducing wear and achieving greater oil economy. Extra cost on the other two low-price cars.

And dozens of other part-by-part comparisons prove Plymouth is your "best buy"! See us today... and get the facts!

Ask us for the big illustrated booklet that shows how Plymouth leads in frame construction... engine design... performance... economy... comfort... safety.
